Experience

TickLab - Student Organization 10 / 2024 - Present
Engineering Member

- Develop and maintain** software projects for the lab's initiatives.
- Research and experiment** with new technologies to improve existing systems.
- Collaborate** with team members to **design and implement** solutions.

Projects

Project 1

Book store

- Built with **Node.js, Express.js and MongoDB**.
- Integrates **Docker, Nginx** for easy deployment and **containerization**.
- Implements a complete **CRUD system** to manage books efficiently.
 - Link** <https://github.com/BaoDuong254/book-store>

Project 2

NodeJS web framework

- Implementing** a lightweight **web server from scratch** without relying on Express or similar frameworks.
- Understanding** how **web servers work** and how to handle HTTP requests and responses.
 - Link** <https://github.com/BaoDuong254/nodejs-web-framework>

Project 3

Softy Pinko web

- Create a basic web with **HTML, CSS and Bootstrap**
- User Interface** design
- Ensure the **website displays correctly** across different browsers
 - Link** <https://github.com/BaoDuong254/Softy-Pinko-FE-2>

Education

Ho Chi Minh City University of Technology
VietNam National University Ho Chi Minh City 2023 - 2027

Bachelor of Computer Science

GPA: 8.43 / 10

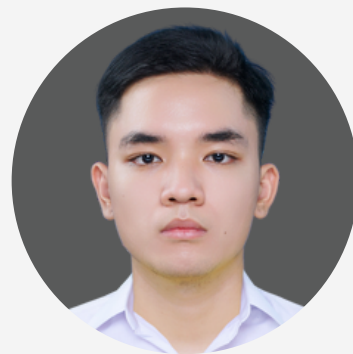

Knowledge:

- Programming fundamentals
- Object-oriented programming
- Data Structures and Algorithms

Certification

IELTS Academic 6.0 | [Link](#)

Microsoft Office Specialist | [Link](#)

About Me

I am a sophomore at Ho Chi Minh City University of Technology, pursuing a degree in Computer Science. My passion lies in software development, and I am eager to learn and grow in this field. In the next five years, I aim to deepen my expertise in software engineering, contribute to impactful projects, and grow into a leadership role in the industry.

Skills Summary

- Programming languages:**
 - C, C++, JavaScript
- Frontend development:**
 - HTML5, CSS3, Bootstrap, Pug, EJS, Handlebars, Sass
- Backend development:**
 - Node.js, Express.js
- Database:**
 - MongoDB, Redis
- DevOps:**
 - Linux, Bash, Docker, Kubernetes, Nginx
- Tool:**
 - Git, Github, LaTeX, Postman, Ngrok
- Soft skills:**
 - Teamwork, Problem solving, Logical thinking
